Common Solicitation Types

- Request for Quotations (RFQs)
 - Under \$150,000
 - Most common type at DLA
 - Average award is under \$4,000
 - Most quoted through DIBBS
- Request For Proposals (RFPs)
 - over \$150,000
 - Proposals may be negotiated
 - Solicitations must be filled out by hand
and
returned to DSCR by a specific time and date

How DLA Buys

1. Approved CAGE Code & Part Number stated in solicitation under item description
 - Manufacturer(s) already approved
 - Approved source(s) for dealers and distributors
2. Qualified Products/Manufacturers Lists (QPLs/QMLs) – pre-qualified Large &/or Small Businesses for each NSN
3. Source controlled via approved sources – restricted to pre-approved sources listed on drawing
4. Fully Competitive – Government has available for use to any manufacturer

What is on DIBBS?

DIBBS is a web-based application to:

- View and Submit Quotes
- View RFPs
- View Long Term Contracts opportunities
- View Award Information
- View provisions, clauses and packaging specs
- View price history – on some solicitations
- Submit PARS (Post Award Requests System)
- Access Technical Data via cFolders
- Access Acquisition Forecasts using Supplier Requirement Visibility Application (SRVA) tool –
must have login & password
- Access Past Performance Information Retrieval System (PPIRS) via a web link – another
Performance Score used in award decisions

How DLA Buys Now

At least **85%** of our solicitations
are

AUTOMATED via
DIBBS

- These procurements are system generated, web based, evaluated and awarded by the computer, called Automated One Time Buys. They are virtually untouched by human hands.
- Automated procurements are identified by having a T in the 9th position of the solicitation number.

You are accessing a U.S. Government (GSA) INFORMATION SYSTEM (IS) (which includes any device attached to this information system) that is provided for U.S. Government-authorized use only. You consent to the following conditions:

The U.S. Government routinely intercepts and monitors communications on this information system for purposes including, but not limited to, penetration testing, communications security (COMSEC) monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.

At any time, the U.S. Government may inspect and seize data stored on this information system. Communications using, or data stored on, this information system are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any U.S. Government-authorized purpose.

This information system includes security measures (e.g., authentication and access controls) to protect U.S. government interest-not for you personal benefit or privacy.

Notwithstanding the above, using an information system does not constitute consent to personnel misconduct, law enforcement, or counterintelligence investigative searching or monitoring of the content of privileged communications or data (including work product) that are related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Under these circumstances, such communications and work products are private and confidential, as further explained below:

- Nothing in this User Agreement shall be interpreted to limit the user's consent to, or in any other way restrict or affect, any U.S. Government actions for purposes of network administration, operation, protection, or defense, or for communications security. This includes all communications and data on an information system, regardless of any applicable privilege or confidentiality.
- The user consents to interception/capture and seizure of ALL communications and data for any authorized purpose (including personnel misconduct, law enforcement, or counterintelligence investigation). However, consent to interception/capture or seizure of communications and data is not consent to the use of privileged communications or data for personnel misconduct, law enforcement, or counterintelligence investigation against any party and does not negate any applicable privilege or confidentiality that otherwise applies.
- Whether any particular communication or data qualifies for the protection of a privilege, or is covered by a duty of confidentiality, is determined in accordance with established legal standards and DoD policy. Users are strongly encouraged to seek personal legal counsel on such matters prior to using an information system if the user intends to rely on the protections of a privilege or confidentiality.

PREP FOR DELIVERY:

PKGING DATA-QUP:001

SHALL BE PACKAGED STANDARD COMMERCIAL IN ACCORDANCE WITH ASTM D 3951.

Markings Paragraph

When ASTM D3951, Commercial Packaging is specified, the following apply:

- ,,All containers shall meet ASTM D4169, Standard Practice for Performance Testing of Shipping Containers and Systems.
- ,,All Section D Packaging Clauses take precedence over ASTM D3951.
- ,,In addition to requirements in MIL-STD-129P, all Labeling and Marking shall have a Method of Preservation of Commercial Pack applied to the MIL-STD-129 identification labels on all shipping

containers, including the unit and intermediate levels. The Method of Preservation (M) of Commercial Pack (CP) shall be applied to all labels and marking as "MCP."

- ,,For all shipments of packaged materiel to the Government, which includes either Depot (DLA-Direct) or DVD (Customer-Direct) shipments, both DoD linear and two-dimensional (2D) bar code markings are required in accordance with MIL-STD-129. See DLAD 52.211-9010 for exceptions to the Military Shipment Label (MSL) requirement. When the MSL is required, the Transportation Control Number (TCN) is not an exception and must always be present. TCN construction is detailed in DTR 4500.9-R (Appendix L).
- ,,The Unit of Issue (U/I) and Quantity per Unit Pack (QUP) as specified in the contract take precedence over ASTM D3951.
- ,,Loose-fill cushioning and dunnage materials are prohibited in all shipments to DOD customers.
- ,,Unitization in accordance with MIL-STD-147, Palletized Unit Loads, is required for all shipments to the DOD activities.
